CouponXpress™

desktop TITO/coupon printer

RELIABLE PERFORMANCE

- ITH® (Intelligent Ticket Handling) technology virtually eliminates ticket jams by making ticket available only after it's been fully printed and burst

FAST PRINTING SPEED

- Prints and presents in 3.8 seconds

LARGE FILL CAPACITY

- Stores up to 300 tickets

EXPANDED GRAPHICS MEMORY

- Stores a wide range of clip art objects and thousands of templates

The CouponXpress™ desktop TITO/coupon printer builds on the technology that has made JCM the leading manufacturer of TITO printers – bringing all of the popular GEN2U™ and GEN5™ printer features, functions and flexibility from the game to the cashier's cage, hotel front desk, unattended kiosks and other transaction points.

Compatible with traditional gaming protocols as well as new USB communications, the CouponXpress printer enables fast, convenient TITO transactions, such as ticket purchases, consolidation, or replacement of torn or crumpled tickets. It can also be used to distribute targeted promotional coupons at different venues – such as at the concierge desk, gas station, gift shop, or hotel rooms – to reward, retain or recruit casino patrons.

Housed in an attractive and rugged cabinet, the CouponXpress printer provides the convenience, flexibility and reliable performance needed for effective coupon campaigns.

Fast 3.5 inch per second printing, large ticket storage capacity, and ITH® (Intelligent Ticket Handling) technology combine to maximize the CouponXpress printer's uptime and reliability. Additionally, high-resolution printing and storage for a wide range of clip art objects and thousands of templates facilitates ticket customization and branding.
